February 11, 2011

Dear Board of Finance and Legislative Council Members:

This budget, as forwarded to you, was adopted by the Board of Education at its February 8, 2011 meeting. Our board is requesting a total of \$69,201,017 which represents a 2.99% (or \$2,006,283) over this year's operating budget.

This budget represents an effort by the Board to present a balanced proposal, one that provides the resources necessary to maintain the quality of Newtown's schools while respecting the burden that it places on the taxpayer. It is also the first product of an effort to reform our budgeting process.

A key aspect of that reform is to draw a distinction between those expenses needed to maintain the same level and quality of education in the District, and those items that are part of an improvement. Virtually all of the requested increase is necessary to maintain the same service level. The largest component of the increase is from the contracted increases in salaries. The on-going joint program with the Town on self insurance has substantially moderated the expected increase in health insurance; however, it still represents approximately one fourth of the total increase. A projected decline in enrollment at the lower grades has allowed a reduction in elementary staffing. The long term maintenance effort level has been kept at the reduced level set last year.

The only element of this request above the same service level is the addition of two positions at the high school, to continue our effort to improve the quality and effectiveness of our secondary programs and better prepare our students for the highly competitive college and job market place.

We recognize that any increase is a significant burden for the taxpayers, and have worked hard to create a budget that keeps that increase as low as possible, while continuing the quality of education that our children and community demand. We hope that you will support this budget.

Sincerely,

William G. Hart, Jr.
Chairman

A necessary first step in the budget process each year is to project the student enrollment for the district as well as each school for the coming year. The district's projections used for this budget were based on these projections and past history. These yearly projections have been generally on target and have contributed to sound judgments regarding staffing and other budget needs for each coming year.
